

SOME NEW LINES PROJECTED BY C.N.R. OUT OF EDMONTON SOUTH

Announcements Will be Made Shortly—130 Teams Working on Landing Line—Start Made on New Peace River Road—Gen. Manager Visits the City

Some very active developments in Canadian Northern railway construction circles are expected to take place within the next week or two, which will provide for some new lines out of Edmonton and Strathcona.

J. L. McIntyre, one of the big men with the Northern Construction company, which is doing a greater portion of the Canadian Northern construction in Alberta, returned to the city this morning from Red Deer, where he has been looking over some new work, announcements in connection with which are expected to be made before very long. Mr. McIntyre could give no information for publication at present, but stated that something would be said regarding certain new lines shortly.

Pushing Landing Line.—Contractors Geig and Bishop have teams working on the extension of the branch north to Athabasca Landing, and this will be completed this summer," said Mr. McIntyre. "There are about 30 miles yet to be finished. No steel has yet been laid on the Landing line, but it is probable some will be laid this summer."

Start on Peace River Line.—Speaking of the commencement of construction of the new Peace River line, which branches from the main line at Onoway, west of St. Albert, Mr. McIntyre stated that contractors had commenced to cut right of way on the line, and some grading would be done this year.

Steel laying commenced last Friday on the Strathcona branch line of the C. N. R. west from Stettin. The grade on this line has been completed as far as Blackfalds, where the line crosses the C. & N. R.

"The contractors hope to have this line pretty well completed this fall,"

TO ENTERTAIN CHAIR

The Edmonton board of trade is arranging an elaborate reception of the Sheffield Club of two hundred members upon their arrival at Edmonton. The party travel in their own special train of ten sleepers and diners, and will arrive here from Saskatoon over the G. P. & N. next Tuesday noon. It is intended to receive them with a large number of automobiles and have the party housed in the city in its most favorable manner. As many of the members of this organization are wealthy persons, intending to invest in our northwest, every owner of property would be wise to take an interest in making the Edmonton reception of the party both hearty and enthusiastic.

GRAND TRUNK GOING AFTER THE LAKE ROUTE TRAFFIC

EXPECTS TO HAVE TRAINS RUNNING SOON FROM EDMONTON TO FORT WILLIAM—DISTRICT PASSENGER AGENT QUINLAN HERE.

That the Grand Trunk Pacific railway will be running passenger trains through from Edmonton to Fort William in time to handle a large portion of the lake route traffic this summer, is forecasted by W. J. Quinlan, who is paying his first visit to Edmonton today in his capacity as district passenger agent of the G.T.P. over the territory from the Great Lakes to the mountains.

Mr. Quinlan takes the place of A. E. Dyer, who was so well known in the west, and who was recently transferred to be district passenger agent of the Grand Trunk system at Toronto. Mr. Quinlan is also well and popularly known throughout the west. His headquarters will be in Winnipeg.

Mr. Quinlan has been with the Grand Trunk for nine years, coming west with Mr. Dyer four years ago to assist him in the handling of the passenger business over the new line west of Winnipeg. When the G.T.P. is opened through from the lakes to the mountains, Mr. Quinlan will have charge of all this territory.

Mr. Quinlan told the Capital this morning that nothing definite had yet been decided as to how passenger traffic would be opened up over the G.T.P. east from Winnipeg to the lakes, but he expected that trains would be running in time to handle some of the summer trade.

Capital yesterday afternoon, to the fact that lumbermen on the Grand Trunk Pacific and Canadian Northern lines during the winter, were compelled to wait in the city penniless until the arrival of their pay cheques from Winnipeg. In some cases the delays were so long as to cause very acute distress. Yesterday the United Aids submitted a report covering the months of February, March and April, the three months which have run since the charitable organization was taken under the aegis of the municipality. The report showed that a total of 529 cases have been found for applicants for aid during the period of three months, 137 of which were in February, 187 in March and 305 in April. The number of applications totalled 572, 149 in February, 149 in March, and 174 in April.

GET TOGETHER IS OBJECT MEETING

Amalgamation Committees Are Named by Edmonton and Strathcona to Meet

A meeting of the amalgamation committees appointed some time ago by Edmonton and Strathcona, will be held in the Strathcona council chamber this evening at eight o'clock. The discussion with respect to the union of the two municipalities will follow general lines with a view to getting some definite basis on which the committees can work in future. It is the opinion of the majority of both committees that negotiations leading to amalgamation of the two cities should be carried forward as rapidly as possible in order that there may be no more delay than is absolutely necessary.

In studying the question the representatives of the two cities have endeavored to realize that it will take several months to complete an agreement which will fully protect the interests of the two municipalities and to back to their advancement and it is with this view that it is proposed to buckle down to work and carry the negotiations on as rapidly as possible.

HALF-BREED WINS CASE IN COURT

Alleged He Signed Document While in an Intoxicated Condition.

Claiming that he had been induced to sign an agreement for the sale of a valuable property at La Biche, upon fraudulent misrepresentation and undue influence of liquor supplied him by Lonce Lessard, an Athabasca Landing merchant, Loe de Jarlais, an illiterate half-breed of the La Biche district, yesterday afternoon secured dismissal of an action brought against him in the supreme court for the purpose, for specific performance of the agreement. The case came up for trial before Mr. Justice Stuart.

According to the terms of an agreement entered into on April 1, 1909, de Jarlais contracted to sell to Lonce Lessard, a farmer of Leduc, the whole of lot 27, Lac la Biche, comprising all some 150 acres. The half-breed's mark was attached to the document, de Jarlais being unable to read or write. \$35 was paid on account.

The half-breed alleged that he was drunk when the document was signed, and that Lessard had supplied him with liquor with the deliberate intention of inducing him to sign the agreement. Even when the document was signed, de Jarlais believed it to be nothing more than a promise to pay \$30 supposed to be owing to the plaintiff. De Jarlais believed it to be nothing more than a promise to pay \$30 supposed to be owing to the plaintiff.

In addition to the cases published yesterday, the following have been set down for trial at the May sittings of the supreme court: Town of Victoria vs. Fife; Bonneau vs. Pomeroy.

A formal reception to Rev. Principal Doyle of the Presbyterian College, will be given by the Presbytery of Edmonton on Friday evening at 8 p.m. in First Presbyterian church. The meeting will be presided over by the moderator, Rev. J. M. Miller, and addresses will be delivered by Lieut. Gov. Bulyea, President Torry, and Rev. Dr. Biddell and others.

LOOKS DUBIOUS FOR ARTIFICIAL GAS IN EDMONTON FOR PRESENT

Nothing Doing on Agreement With International Heating and Lighting Company.

A NEW AGREEMENT WILL BE PREPARED

Utilities Commissioners Take Advantage of Technically Because Failed to Report to Council With Result That No Report Will Be Submitted Until Legally Required.

From present indications it will be several weeks and possibly months before the city council finally passes an agreement giving to some company the right to furnish the citizens with artificial gas. At the present time the agreement which has been pending between the city and the International

What Will be Scope of Inquiry Question Today at Ottawa

BOSTON MAN HELD FOR MURDER OF COMPANION

Willesden, Curacao, May 3.—George Stoddard, who says that he is native of Boston, and imprisoned at Maracaibo pending inquiry into the death of two companions, George Bradford, an American, and Arnold Arens, a Canadian. The three men, supposed to be wandering mechanics, were crossing Lake Maracaibo in a sail boat when the craft was capsized. Bradford and Arens were drowned, but the other two were drowned.

TONIGHT CLOSING VESTA VICTORIA'S ENGAGEMENT

Convincing proof that Vesta Victoria's popularity is not waning was given in evidence at the Empire last night, when she and her very capable company entertained an audience completely filling the theatre. And it was an appreciative crowd, showing sufficient enthusiasm to keep every member of the company on his or her mettle from curtain to curtain. Miss Victoria, in characteristic song and action, was of course the star, others on the bill came for a liberal share of applause, and what's more, desired it. Tonight closes Miss Victoria's engagement in Edmonton and a large house is expected.

NEGRO IMMIGRATION OPPOSED BY TRADES AND LABOR COUNCIL

Central Labor Body Also Goes on Record Against Agreement Relating to Conditions of Unskilled Labor in Edmonton

The Trades and Labor council at its meeting last evening, passed the resolution submitted by the board of trade opposing negro immigration.

Several delegates pointed out that the only right the council had to support such a resolution was on economic grounds, and it was contended to be amply proven that an unlimited influx of negroes into this province would inevitably lower the standard of living. Delegates who had had some experience of this in several states over the border gave interesting accounts of their working out there. It was also pointed out that it would make more complex the school question, particularly in the country districts.

A lecture on the Canadian Rockies will be delivered in the McEwain Methodist church this evening by Rev. W. J. Hagelthorn. The lecture will be illustrated by seventy-five views of the Rockies taken by Byron Mammou, official photographer for the Canadian Alpine Club. Dr. H. H. Smith will take the chair at 8.30.

Dr. Whitehead has received word of the death on Tuesday last of Mrs. George Laidlaw, of Toronto, mother of Mrs. Whitehead.

J. E. Quick, general baggage agent for the Grand Trunk Pacific railways arrived in the city yesterday.

missioners and industrial committee should get together and prepare what would practically mean an entire new agreement, taking into consideration the objections registered in Commissioner Bouillon's report last evening, and then report to the council. What the committee of the whole rose, however, they forgot to report to the council and on this technicality the commissioners will refuse to submit any report until legally requested or instructed to do so by the council.

Sir Wilfrid Laurier to Leave for London in Two Weeks to Attend Coronation and Imperial Conference

INTERIM ADJOURNMENT NOW DEEMED PROBABLE

Ottawa, May 3.—In the house this afternoon it is expected that the motion to appoint an investigating committee to enquire into the Oliver scandal will be the item of greatest interest on the order paper.

Sir Wilfrid Laurier in his resolution yesterday stated that a committee of five, two conservatives and three liberals, would be appointed to enquire into all the circumstances surrounding the issue of the order in council of May 8, 1907, by which the Canadian Northern company was granted the right to take ten land in Saskatchewan in place of the grant given under its original charter to the Manitoba and Southern railway, now the main line of the Canadian Northern, in Eastern Manitoba.

The question today is, what is to be the scope of the enquiry. If, as Sir Wilfrid's motion intimates, it is to be confined to the issuance of the order in council, it is generally admitted that it will be impotent and innocuous, as no

inquiry with such limitations could open up the question of the source of the money which Oliver is alleged to have placed to his credit shortly after the issuance of the order providing for the land grant.

On the other hand, the investigating committee is given the power to examine the minister's private affairs some interesting development may result. This morning Sir Wilfrid had a short conference with Mr. R. L. Borden, the leader of the opposition, and it is said that he submitted certain proposals in his respect to the session and the business still before the house. Just what these proposals were is not known but Mr. Borden will lay them before a conservative caucus tomorrow.

Leader to Attend Coronation

Sir Wilfrid Laurier, it is understood, has definitely decided to go to the imperial conference and coronation and will sail on the Virginia on May 12.

In coming to this conclusion it is understood that the premier has been guided by the consideration that if he does not attend the conference his action will be misunderstood in Great Britain.

Saves for England Next Week

It is stated that Sir Wilfrid informed the conservative leader that he proposed to leave for England next week, and would leave the house in charge of Mr. Fielding and other ministers. General business could be proceeded with and then if all are so disposed the discussion of Resolutions could be resumed and, if necessary, continued until its return from England after the conference and coronation.

May Adjourn Until Return

It is likewise understood that the two houses discussed the advisability of the house adjourning until after the return of the premier an interim supply bill being passed before adjournment.

A considerable number of liberal members would not object to a two months' adjournment. As a matter of fact they would prefer to go home for a couple of months than to remain in Ottawa making time till the premier returns from England. Conservatives are also favorable. Which of the two motions will be accepted is a matter of some doubt, which will be settled probably within the next twenty-four hours. In view of this it would not be surprising if an adjournment is agreed upon.

SIX STORY BUILDING TO BE ERECTED ON JASPER WEST

NEW STRUCTURE WILL COST APPROXIMATELY \$130,000—GROUND BROKEN THIS MORNING—DOCTORS MCLEAN AND CONDELL BUILDERS.

The first six-story building to grace Jasper west, will be erected this summer on the north-west corner of Eighth and Jasper. Work was started this morning on the excavation for the block.

The building is being erected by Dr. McLean and Dr. Connelly, and J. E. has been recently removed, and excavation will be started today.

PLENTY OF PRECIPITATION IN SASKATOON DISTRICT

Saskatoon, May 3.—Precipitation for the month of April in the Saskatoon district was 1.34 inches, as compared with .25 inches in 1910 and 14 inches in 1909, and for the four months of the year 4.69 inches, as compared with 1.15 inches in 1910 and 1.87 inches in 1909. The heavy fall of moisture and the rather late spring have put the soil in a condition that has not been equalled in years, and the prospects for a bumper crop are the brightest.

The Saskatoon board of trade proposes to bring again before the western association board the matter of endeavoring to secure legislation at Ottawa to compel railroads constructing bridges over streams on the prairies to make the sub-structure sufficiently substantial to permit of a traffic adjustment when required.

A. A. Darvich, manager of the A. A. Darvich Co. has left the city on a month's business trip.

inquiry with such limitations could open up the question of the source of the money which Oliver is alleged to have placed to his credit shortly after the issuance of the order providing for the land grant.

BUMPER CROP IS NOW IN SIGHT

Excellent Prospects for Winter Wheat and Spring Crops Looking Well.

Lethbridge, May 3.—The Colonial Loan and Investment Co. has purchased the land interests of C. E. Snow, of Cardston, in the Goehraue-Knowles district, west of Cardston, for a quarter of a million dollars.

School Inspector D. A. McKernacher, who has returned from a trip through the rural districts where he has been driving all spring, says he never saw one country look better. He did not see one poor patch of winter wheat in all the country. The spring crops are coming along well. He never saw such good prospects for a bumper crop.

PRESS OF PUBLIC BUSINESS KEEPS COUNCIL UNTIL LATE

Routine Matters Consume Considerable Time—Gas Engineer from Indiana Recommends Building of Municipal Gas Plant in Preference to Private Ownership—Salaries Increased

The agreement with the International Brotherhood of Electrical Workers, together with a lengthy discussion on the type of machinery which should be purchased for the city power plant, formed the chief topics of discussion at the meeting of the council last evening. After a session which lasted until nearly twelve o'clock, the council adjourned until Thursday afternoon at five o'clock, when the city engineer will submit a report on the power plant entrance question. There is a possibility that the power machinery question will also be taken up again at this meeting.

The secretary of the Union of Canadian Municipalities wrote, advising the council that the next meeting of the union would be held in Quebec on August 29th, 30th and 31st, and that the city's fee of fifty dollars was due. The money will be forwarded to the secretary in the near future.

M. J. Melend, clerk of the executive council, advised the council that the protest registered against the taking in to the city of the S.E. quarter of section 15, township 53, range 24, would be heard at two o'clock on Monday next. The affair was left in the hands of City Solicitor Brown and the city commissioners, who will act for the city on the question.

Merchant's Protest.

W. H. Ketchum, on behalf of the Edmonton Retailers' association, advised the council that they considered some change should be made in the bylaws governing peddling in the city. He referred to the legislative committee, which will meet a committee from the merchant's association and bring in a report at the next meeting.

Bylaws Passed.

A bylaw to raise the sum of \$135,000 for waterworks extensions was provisionally passed by the council. The bylaw to raise funds for the purchase of a site for a stock yards was also provisionally passed and will be voted on by the council on the 26th of May.

The city solicitor was instructed to prepare the necessary bylaw to comply with the Dominion government's regulation with regard to the city securing power rights on the Athabasca river.

Salaries Increased.

The secretary-treasurer's recommendation that the salaries of A. Russell and Frank Barnhouse, members of his staff, be raised to \$125 each per month was adopted without comment.

Gas Question Re-Opened.

W. B. Hughes, on behalf of Coates

and Son of London, England, who have a proposition to make to the city, asked that the question be tabled until next Tuesday, as by that time Mr. Coates could reach the city from London. Some of the aldermen considered that this firm had already had ample time to submit a proposition and Alderman Lundy and Miller moved that the letter be filed. The motion carried. Alderman McKinley took a strong stand and stated that it was his preference which way the vote went on this or any other similar request, as he intended to vote against the awarding of a franchise to any private company.

Would Build Civic Plant.

A communication was received from F. W. Freeze, gas engineer of Fort Wayne, Indiana, offering to erect a plant for the city which would cost the sum of \$25,000 people for \$150,000. He would submit blue prints showing the manufacturing plant as well as the layout of the distribution system free of charge.

Alderman Lundy moved, seconded by Alderman Grindley, that the letter be filed. The council was evenly divided on the question, Alderman Lundy, Grindley, Gosson and Miller voting for the motion, with Alderman McKinley, Hyndman and Moulton against. The mayor voted against the motion and the industrial committee was instructed to take up the question with Mr. Freeze with a view to getting a concrete proposition from him for the installation of a municipal plant.

Commissioners' Reports.

The commissioners submitted a report on the power machinery question and the proposed gas agreement, details of which are given in another column of this issue.

The commissioners submitted the following report with respect to the claim of Dewar and Conover arising out of their contract for exhibition buildings for 1911. The report was adopted and the Exhibition association will be notified of the council's decision.

"During the construction of the buildings at the exhibition grounds last year, when it became doubtful that the buildings would be ready for the exhibition, there was some confusion in the issuance of orders for certain work outside of the contract.

"A certain change in location of box stalls, the plan by the association and instructions were issued to the contractors, Messrs. Dewar and Conover, to make the change. This con-

sisted of the construction of nine box stalls where the plans did not provide for them, and consequently involved cost extra to the contract. As soon as the matter was explained to us and since there was to be certain extra work in connection therewith, we requested an estimate of the cost and this was duly submitted to us by Messrs. Dewar and Conover as \$275.00 per stall. While we were considering this estimate, having referred same to the city engineer's department for investigation, the contractors were instructed to proceed with the work which was necessary in order to have said work completed in time.

"When the city engineer's report on this extra work was submitted to us showing a cost of \$250.00 per stall, it appeared that the price submitted by the contractors was excessive. We held a number of conferences with the contractors, at some of which the representatives of the city engineer's department were present and it appeared impossible to reach an agreement. The correctness of the city engineer's estimate was not questioned by the contractors, but they claimed that since they had been instructed to proceed with the work, they were entitled to be paid therefor. We offered a compromise to the contractors agreeing to pay them an amount equivalent to the amount of their price less one-half of the difference between us, that is, \$250.00 per stall. The contractors agreed to accept by them, but it appears that it was never accepted in settlement of the account and they have repeatedly requested a settlement of the balance claimed by them, namely, \$112.50.

"The matter was later referred by us to the inspector of buildings, and the city engineer's estimate of the cost was verified by him. At a recent conference, Messrs. Dewar and Conover, appearing to be determined to prosecute the claim and the matter involved being small, we concluded that we would submit the matter to your honorable body for consideration, recommending in view of the satisfactory relations in their performance of their contract and of the small amount involved, that the claim be allowed.

"In the meantime, the control of the funds of the Exhibition association has passed out of our hands, so that if this claim is allowed by your honorable body, the matter should be placed in the hands of the Exhibition association for settlement."

POWER MACHINERY CASE OF HEATED TALK IN COUNCIL

**COMMISSIONER BOULLON AND ALDERMAN GRINDLEY
GET PERSONAL IN THEIR REMARKS—BYLAW FOR
PURCHASE OF MACHINERY ON TABLE.**

The question as to the type of machinery which the city should purchase formed the chief topic at the council meeting last evening and while the discussion between the several aldermen and Commissioner Bouillon was not without interest, it was not without a heated tone. As foreseen in the Capital yesterday the fight hinged over whether the city should install a 1200 kw. machine or a 2400 kw. machine.

The commissioners were willing to call for new tenders but suggested that any plan for installation of new machinery being decided should rest with the council to which Alderman Grindley replied that there would be no delay in this matter being decided within forty-eight hours.

It was pointed out by the mayor that all of the superintendents who have had charge of the power plant for some time past and the present superintendent favored the installation of a 2400 kw. unit. The utilities commissioner stated in effect that the gentlemen in question did not know what they were talking about. Asked as to whether Superintendent Hoffman considered a 1200 kw. unit of sufficient size the commissioner evaded a direct answer by stating that no complaint had been registered with the commissioners by the superintendent and that he was well satisfied.

A desultory discussion then took place during which the aldermen paired off and discussed different topics while Alderman Grindley and Commissioner Bouillon held a little session of their own which was greatly enjoyed by those present. The former charged the latter with poor business tactics in the letting of contracts and calling for tenders while the latter replied with a suggestion that Alderman Grindley was in that he was agent for machinery firms was sure because he had not received the contract. This led to anything but polite remarks and there was indication for a time of the meeting breaking in a row. His worship the Mayor, however, came to the rescue by asking the utilities commissioner if it would not be better to install a large unit and ensure the citizens an abundance of power for once in the history of the city. The commissioner could not see it that way.

As the affair now stands the money bylaw for the purchase of power machinery is still on the table and will in all probability remain there until the council is convinced that the commissioners will install a plant which meets all the demands laid upon it. The commissioners state that their proposition is the only feasible one lead-considered to the development of a proper plant. There is a deadlock. No decision has been reached and none of the aldermen nor the commissioners are willing to risk a guess as to when an agreement will be reached.

Scored by Alderman Grindley for the contract to the Allis Chalmers Company without securing bids from other companies, the commissioners suggested that the alderman was because his company had not been given the opportunity to bid.

"If you wanted a 1200 kw. machine why did you only ask for tenders on 400 kw. and 2400 kw. machines?" he asked the alderman in question. "Because we did not know that that was the type we wanted," was the reply, "we do not know what the demands laid upon it are. We have a company in question come to submit a tender on just what we need." Alderman Grindley considered that the contract should be put up to open competition. It was not fair to ask for tenders on one thing and then decide to buy another. He expressed simply because some firm happened to tender on it. The utilities

Scored by Alderman Grindley for the contract to the Allis Chalmers Company without securing bids from other companies, the commissioners suggested that the alderman was because his company had not been given the opportunity to bid.

"If you wanted a 1200 kw. machine why did you only ask for tenders on 400 kw. and 2400 kw. machines?" he asked the alderman in question. "Because we did not know that that was the type we wanted," was the reply, "we do not know what the demands laid upon it are. We have a company in question come to submit a tender on just what we need." Alderman Grindley considered that the contract should be put up to open competition. It was not fair to ask for tenders on one thing and then decide to buy another. He expressed simply because some firm happened to tender on it. The utilities

BALTIMORE TO ENTERTAIN NOTABLE PEACE CONGRESS AND DISTINGUISHED MEN

MEETING OPENS TOMORROW AFTERNOON WITH AN ADDRESS BY PRESIDENT TAFT—EMINENT FOREIGNERS TO PARTICIPATE IN SESSIONS.

Baltimore, Md., May 3.—Scores of delegates are today travelling from every section of the country to the Third National Peace Congress, which will be opened in this city tomorrow afternoon with an address by President Taft. Several distinguished foreigners who will have a part in the programme have already arrived here and are being entertained at the homes of Baltimore's leading citizens.

No event in the history of this city has ever brought together so many representatives of such different beliefs, birth and breeding. Farmers and college presidents, financiers and workmen, statesmen and philanthropists,

"This takes the Bun"

1st.—Look up Mum's Excellent New Map of the Twin Cities of Edmonton and Strathcona.

2nd.—Run your eye down one mile from Strathcona's City Limits, in the south, joining Grand View Heights in the north, and Alberta Park in the east, and having only a lake between them.

"IS THE WILKINSON ESTATE?" being N. W. 1-4 Sec. 13, 52, 25 W. 4th

"IT IS IT" and can be bought for \$200 per acre if bought at once. \$10,000 cash, and balance in one, two and three years.

Any small syndicate—say 4—putting up \$2,500 can easily handle this. Get it subdivided. It is only a few minutes' drive or walk from the present street car line in Strathcona, close to the beautiful

University Park With the High Level Bridge completed shortly, will be an ideal spot for a home. Remember, the lots in Grand View Heights are selling about \$150 to \$200 each.

You can now buy this property at \$250 per acre. If you mean business come and the owner will show you over the place. But it must be done NOW.

EDMONTON, ALBERTA, CANADA.

\$25.00 CASH

Handles One Lot in

Grand View Heights

The Beauty Spot of the Twin Cities

This is positively the finest residential property on either side of the river at twice the price.

Grand View Heights is on the high bank of the river, overlooking the beautiful Saskatchewan valley, overlooking the University grounds, and overlooking the "Twin Cities."

SASKATCHEWAN AVENUE, a 100 foot boulevard, follows the high bank of the river all the way from the east part of the city to the west side of Grand View Heights.

THE HIGH LEVEL BRIDGE will soon be completed, and the street cars running direct to Strathcona, and with the traffic deck completed, so that teams and foot passengers can go straight across on the level.

Can you imagine what this will mean to GRAND VIEW HEIGHTS?

The amalgamation of the two cities will make it all one large "Greater Edmonton" with "South Edmonton" the best residential portion of the city.

What can you buy lots for then in Grand View Heights?

They will surely cost you many times what you can buy them for today.

Price of Lots Today

GAS AGREEMENT MUST BE FULLY SATISFACTORY TO RATEPAYERS OF CITY

Decision Reached at Council Meeting Last Night After a Warm Session in Which Nearly All the Aldermen and Commissioners Participated—Bouillon Scores Heavily in Opposing Proposed Agreement.

Commissioner Bouillon scored a complete victory last evening, when, after reading his criticism of the proposed agreement with the International Heating and Lighting company, the council in committee of the whole decided to instruct the commissioners to bring down an agreement which would protect the city in every way and one which would be satisfactory to the council. Outside of Alderman Lundy and Alderman Gowen, the members of the council did not appear to particularly care whether or not the agreement met with the approval of the International Heating and Lighting company. The idea was advanced that there should be a standard agreement drawn up and then should any other companies desire to submit a price for supplying the city with gas, the positions would all be considered. Alderman Mould thought that the city should advertise that it had a gas franchise and throw the question open to all interested and the city take the best that was offered. Alderman Lundy and Gowen were strenuously opposed to any such proposition.

Alderman Molins favored negotiating with any company which might have a proposition. Alderman McKinley announced unequivocally that he would vote against any motion to turn over a franchise to a private corporation. Alderman Lyndman thought that the city should first prepare an agreement of which there could be no criticism. There would be no justice in submitting a proposition full of loopholes to the ratepayers. Alderman Lundy considered that the ratepayers should decide the question and that possibly with a few modifications the present agreement should be submitted. Mayor Armstrong came down flat-footed at this point and announced that he would not uphold the submission of any law which did not protect the interests of the citizens.

Alderman Grindly did not think very highly of the commissioners' report, and considered that it intimated that the councilmen were all d—d fools. He did not think one out of ten ratepayers would read the agreement and that if it was defeated it would be defeated on general principles.

Alderman Lundy stated that the present agreement was based on a report submitted by the utilities commissioner.

Commissioner Bouillon here interrupted to state that such was not the case and asked Solicitor Brown if it was not true that the agreement was drafted

from a former agreement with the company. The latter replied that such was the case, but that Commissioner Bouillon's report was among the papers which he had looked over. "There is no question about the legality of this agreement," declared the utilities commissioner. "It is legal in every respect and the city will be turned over to the gas company if this agreement goes through."

Alderman Mould: "From the discussion one would think this International company is the only gas company in the world."

Ald. Gowen: "Trying to let on now that you know something about gas, aren't you?"

Alderman Gowen and Lundy appeared to be afraid that the gas company would be held up and refuse to build a plant if the terms of the agreement were made too strict, but this did not leave the rest of the council, and the industrial committee, together with the commissioners, will be asked to bring in what in substance will be a new agreement.

Commissioners Report.

Commissioner Bouillon's objections to the present agreement were in brief as follows:

Generally speaking, the agreement was too loose and valuable privileges are being turned over to the company without the city being adequately protected. The company should state the quality of gas which it intends to supply, together with the pressure which it expects to maintain in its mains.

Gas should be not less than 650 British Thermal units instead of 500, as provided for in the proposed agreement throughout the city. Plans should be submitted for the gas delivered should be determined by a civic official at different periods.

The company should not be given indiscriminate powers to lay its main throughout the city. Plans should be submitted for each extension and approved on its merits by the commissioners.

The company is given eighteen months to complete its plant, but may secure an extension of time by showing cause for delay to the council.

The company would be the only one to deliver gas to the city for delay under the existing agreement.

The company is given right to construct conduits, etc., which might mean anything from a small tunnel to a large one, with a railway train in it.

City should take over without cost to

the municipality all of the lines of pipe laid on city streets when the term of the franchise has expired, it being considered that by taking the product of the plant for twenty-five years the company has been more than repaid by the charges for the new mains which would be laid.

There was an apparent attempt to avoid dealing with the commissioners. They are in charge of public utilities and should negotiate with the company with respect to any matters of contention which might come up once a franchise was granted.

City Not Protected.

The city was not protected sufficiently against damage suits which might arise out of the granting of the franchise.

The city should have the right to purchase the company's plant at any time and should not be compelled to wait for twenty-five years. The city would have to pay for the plant on a cash valuation and it would not make much difference when it was purchased.

After laying out the mode of procedure for purchase in paragraph 15, it is provided that all bonds, liens, charges or other encumbrances shall be paid by the city, but the contingency that the aggregate of such liabilities might exceed the purchase price was apparently not thought of, at least, the provisions are inadequate.

"The paragraphs relating further to the procedure for purchase, provide for extensions of the franchise for five years and by these clauses the franchise is made perpetual unless the city purchases the plant at valuation without reference to cost and pays for it in cash."

"With reference to the paragraphs in which the rates to be charged to the grantee and specified, we need only say that since this was drawn by the company, the rates are undoubtedly ample. It is a well known fact that the profits in the gas business are enormous."

"In one paragraph it is provided that the rates previously referred to shall be charged for gas of standard commercial quality as specified in the agreement, and that where the gas supplied to consumers shall not equal such standard, the said maximum rates or charges shall be reduced accordingly. There is nothing said as to how consumers may enforce this."

Opposes Slot Meters.

"Paragraph 21 provides that gas meters are to be placed by the engineer of the city. This would be subject to approval of the commissioners. The machine meters should be prohibited unless arrangements are made to prevent such meters being started while any valve or jet is open in the service controlled by any such meter."

Meter Rental Too High.

"The right is given to collect a meter rental of 25 cents per month—\$3.00 per year. It is unusual for gas companies to collect rentals on meters but if this is to be allowed here the amount specified is excessive in proportion to the investment and the meter is placed on the service for the joint use of the two parties concerned, the consumer should not be required to pay rental amounting to more than one-half of a reasonable rate of interest on the investment. The same paragraph gives the right to collect an annual monthly rental of 25 cents in case the consumer shall not install the necessary pipes from the street lines to the building."

In many cases a rental of \$3.00 a year for the service pipe on the lot would be equivalent to extortion and on the average such rental would be in excess of a reasonable interest charge on the cost of such pipe. Attention is here called to the fact that the right is granted to compel the grantee to keep proper accounts."

"In paragraph 22 the grantee is required to furnish evidence of the total amount of gas produced per annum as the city shall require, and to furnish books of account, records of sales, meter records and all other documents of the contractor relating to the quantities of gas sold. There is no attempt in this clause to compel the grantee to keep proper accounts."

An Obscure Paragraph.
"In the paragraph referred to, it is quite clearly provided that certain rates shall be charged per 1000 feet of gas according to the output of the plant. This is assuming that the city would ever be in a position to know for itself what the output of the plant is and to enforce due reductions, but nowhere in the agreement is it stated within what particular district of the city those rates are to apply to start with, and in paragraph 24 of the document, provision is cleverly made for expansion of the system according to a procedure that enterprising operators might keep rather obscure and this without recourse and, after specifying the manner in which and conditions under which the company would expand the system to serve additional consumers, there is a neat proviso absolving the company from charging the rates specified in Section 19, as it is

The Hudson's Bay Co.

clearly provided that only when certain conditions, which the company would determine, are brought about, the consumers are to be charged with gas in accordance with the schedule in Section 19. It is not stated that the consumers are to be charged in the meantime. Further in this paragraph there is an unreasonable requirement of a contract with each consumer for a period of all the months and working fair wages, but the clause is made operative by placing an obligation upon the city to pay any difference. There might be between the wages paid by the company and what the city might consider fair and to deduct such difference from any monies due or to become due under this contract. The clause is ridiculous as there is no provision whatever in the contract for any money to ever become due to the grantee by the city during operation. We should provide for an emergency fund and for deduction of monies so paid by the city from this fund, in order to make such a clause operative.

Can Assign Privileges.
"There is no safeguard in the agreement against an assignment of the privileges granted. It is customary in franchises to require approval of the grantor before any assignment can be made as the city should know at any time with whom it is dealing."

Agreement Too Loose.
"The statement has also been made that the agreement in question was framed by or with the consent of the commissioners. That is also an error. The commissioners had no voice in the preparation of the agreement in question. Generally speaking, the agreement bears the marks of undue haste and it is in no sense a fit agreement to form the basis of twenty-five years of public service to be rendered by private interests. It is far too loose an agreement to place in the hands of any private interests."

Oliver Himself Should Tell Sources of His Supply

If the Western Associated Press dispatch which says that Sir Wilfrid Laurier proposes an investigation into all the circumstances surrounding the issuance of the order in council of May 8, 1937, is to be taken as an indication of the line that is to be followed in the Oliver investigation, then the investigation will fall very far short of being the kind of an investigation that Edmontonians are interested in seeing carried out.

In this Oliver business there is only one real question of public interest and that question is: "Where did the money come from?" Any investigation which does not go into this question by making an examination of Oliver's bank account and calling on him to explain his source of supply cannot furnish the answer to the question of Oliver's probity.

Mr. Oliver himself is the man who should be able to tell all about the sources of his supply. By placing his bank accounts here and in Ottawa before the committee and explaining the items he can show whether the amounts placed to his credit were amounts acquired in some legitimate business transaction or whether they were amounts handed to him from some corporation source, for services rendered or expected.

As a public man, Mr. Oliver owes it to the country to make this explanation, and the explanation he owes is a complete one.

Unless he is willing to make a complete explanation he has no right to be minister of the interior. Unless he is willing, as the members of the Rutherford government were willing, to throw his books open and to explain with the utmost candor where he got the money that is shown to his credit, he is not taking the public into his confidence and cannot be trusted in the position to which he has been called.

Gas Agreement Unreasonable to the Laboring Man

The resolution passed by the trades and labor council last night concerning the wage clause of the gas agreement is one which should get careful attention from the city council and the citizens generally.

As the trades and labor council points out, the clause as it now stands gives the company the right to work their employees a nine hour day and it establishes the wages of common labor at 25 cents per hour for a quarter of a century.

Such an arrangement is manifestly unfair and unjust. The whole labor movement of the continent is toward a shorter day, and an agreement which names a nine-hour day as the day to be exacted for the next twenty-five years is thoroughly unreasonable and reactionary.

To state that the wages shall stay at 25 cents an hour for the quarter of a century is also unreasonable. Wages are increasing year by year, and no labor man on earth would accept an agreement which adopted the scale of the present day as the scale for the next quarter of a century.

With this clause in the agreement no laboring man and no trades unionist could consistently vote for it.

Who is the Real Character Assassin In This Controversy

In a frantic effort to place the critics of Frank Oliver on the defensive, Frank Oliver's Bulletin and those papers which may or may not have profited by the division of the \$50,000, such as the Alberta and the Lethbridge Herald, charge those who ask where the money came from with being guerrillas, still-hunters, hatchet-men and everything else that is detestable.

Before the Bulletin and its allies get too deeply into this mire it would be well to discover first who is the real stab-in-the-back artist.

Was it not Frank Oliver who furnished the sinews of war for the character assassins in the Waterways investigation and who promoted the animosity toward a Liberal government which courted the fullest investigation into its every action?

If this was not the work of a guerrilla and a Camorrist, what was it?

JUST PARAGRAPHS

The superintendent of the street railway is installing hot air heaters in the street cars. The riddle is whether this is a belated job from last fall or an early job for next winter.

The Lethbridge Herald howls in box car letters that the publication of the Oliver bank account is an attempt to blackmail. There are just six thousand round reasons why the Lethbridge paper would like to have this superstition perpetuated.

Seeing that Oliver is going to be investigated, what is this semi-ready liberal club going to do in the meantime. Probably pass a few more resolutions linking the name of Edmonton's greatest statesman with Quantrell of Missouri and Benedict Arnold?

Frank Oliver says that the transfer of the Canadian Northern land grant and a credit item of \$50,000 in his bank account were coincident but not co-related. How blooming odd, you know, that the play should come up just that way when nobody was looking.

STRATHCONA NEWS

Council Authorizes Tax Sale This Year

Strathcona, May 23.—The least frequently mentioned item in some other divisions of the city council the finance committee occasionally comes forward with a recommendation that brings municipal attention to the right about face. At last night's council meeting, however, one of these heavyweights propositions in the way of a tax sale recommendation that calls for immediate steps to be taken after July 1st to advertise for sale all lands in the city in arrears for taxes beyond the legal limitation of one year. Ald. Pollard backed up this report with a few remarks relative to the need of a tax sale this year. The arrears now amount to over \$141,000 and he thought the city could afford to be lenient no longer.

When the administrative mind had fully recovered from the shock of the proposal the worthy fathers one by one expressed themselves entirely favorable to holding the tax sale this year.

However, Mayor Davies and Ald. Vogel were among those who wanted to see the sale delayed until the early months of the year. The reason given was that the year's crop would be taken care of and money would be in consequence more plentiful than at other parts of the season. "I am heartily in favor of a tax sale but at the same time I want to see the people given every show to meet their obligations," said the mayor.

In the course of lengthy discussion it was pointed out by several aldermen that the report of the finance committee did not designate a date for the sale of the other year providing the necessary steps for this event being taken after July 1st next. The sale would therefore probably be held late in the fall.

Solicitor Jamieson said there is nothing to prevent the holding of the proposed sale this year providing the necessary advertising of two months is given. Arrears for the years prior to and including 1934 will be sold by auction. The report of the committee was adopted without change.

Would Abolish Business Tax

The finance committee handed in another report recommending that the business and income taxes in Strathcona be abolished, in accordance with the necessary steps for this event being taken after July 1st next. The sale would therefore probably be held late in the fall.

The finance committee handed in another report recommending that the business and income taxes in Strathcona be abolished, in accordance with the necessary steps for this event being taken after July 1st next. The sale would therefore probably be held late in the fall.

West End Ferry

In order of importance came a recommendation from Ald. Tipton that the council should look into the advisability of placing a ferry on the river near the southwest corner of the city limits in order that the extensive and important settlement located across the valley could be easily of access to Strathcona.

The advice of solicitor Jamieson showed council that the present charter provisions call for a tax on business and this could not be abolished without amendments in that document. The tax however might be reduced greatly, while there has been provision made to do away with the income tax. The matters were referred back to the finance committee for a report next week.

Ald. Tipton pointed out that this city is by virtue of location the natural market town for the great district to the west and he was informed that the settlers were anxious to be given a way of entrance here since the roads leading to Edmonton remain in bad condition. Council were agreed upon the importance of the matter and turned the suggestion over to the industrial committee with instructions to bring in a report within a week.

Ald. Tipton also suggested that some arrangements be made whereby there could be better street lighting in the business section of Whyte avenue. He thought that business men there where it would be used in sign and show window flashlights. Ald. Richards as chairman of the light committee said he had once before taken up the matter and found that the present business rate is not greatly in advance of electricity at cost price.

Ald. Tipton also suggested that some arrangements be made whereby there could be better street lighting in the business section of Whyte avenue. He thought that business men there where it would be used in sign and show window flashlights. Ald. Richards as chairman of the light committee said he had once before taken up the matter and found that the present business rate is not greatly in advance of electricity at cost price.

Ald. Tipton also suggested that some arrangements be made whereby there could be better street lighting in the business section of Whyte avenue. Strathcona News

J. G. Smart of the new city factory at the south end of the city is now said to extend six feet over his property line according to plans registered. When he began construction on the factory some weeks ago he was informed by the surveyor Mr. Lendrum that his excavation was entirely correct. The trouble was left with the public works committee.

Infectious Disease Score

A report from the Medical Health Officer gave the cheering information that only five cases of infectious diseases exist in town at the present time, these being 1 case chicken pox, 1 case measles and 3 cases of scarlet fever. In view of the fact that only a short time ago there were over 30 cases reported in the city council by a unanimous motion desired the mayor to express the gratification of the members to the health board for the excellent conditions.

A letter was received from Prof. Edwards relative to the sterilized water supply in the city which he has been supervising. He said the intermittent supply was not due to the sterilized water but to the fact that the water was turned over to the finance board. The R. B. Blom Co. was asked for the opportunity to tender on the city's having contracts for the year.

N. D. Mills was asked against the cement sidewalk along the west side of his store block, claiming that the water ran toward the walls instead of to the gutter.

Accounts totalling \$2,917.58 were ordered paid.

Council unanimously endorsed a recommendation of the hospital committee that a suitable present be tendered to the retiring matron of the city hospital, Miss Dickson, as an appreciation of her several years' service in that capacity.

Ald. Pollard reported that the assessment roll for 1934 was complete but would have to be gone into by the council. It was laid over for consideration to an adjourned meeting Wednesday night.

Treasure Over Scavenging

Sanitary Inspector Johnson reported that the contractors for scavenging had only one team at work last night. He had been unable to get the Strathcona Garbage Co., the contractors, to provide more teams. The contract was made and it was agreed that the terms were iron clad. It was unanimously decided that the terms of the contract should not be in any way ignored.

Ald. Richards gave notice that he would move next week that a plank sidewalk be advertised for installation between Sixth street east and Mill Creek bridge on Whyte avenue.

Investors Buy More Suburban Acreage. Southwest of the city cemetery about three quarters of a mile back of a block of land, 125 acres in extent, which now nets \$2,000 for its owner of a few years back.

It was realized last week by Robt. Hutchie for the sale of a part of his property west of the Calgary trail and north from the city limits, the price paid being in the vicinity of \$125 per acre. It is understood to be the intention of the investors to hold the land for subdivision purposes.

Mr. Hutchie is amongst the large number of pioneer citizens who have for a long time been anxious to acquire suburban property while it was comparatively cheap and when the investors to hold the land for subdivision purposes.

While suburban property lying immediately south of the city limits has been in the public eye so prominently as some since the realty movement of the last few months began, the attention of investors has long been directed at the many choice farms situated in the vicinity of the city.

Many of these farms have been made into subdivisions and are now being sold at a profit. One property of a good quarter about three miles south was recently offered for sale at \$20 per acre. Other owners report a constant demand for their land from the west end of the city.

In this direction may be expected here long.

Will Let Contract This Week.

Tenders for the two storey brick block to be erected for Mr. D. Moreau on Whyte avenue will probably all be in this week and the successful contractor announced. It is estimated that the new block will cost in the vicinity of \$15,000.

Builders on the new Hubert, to be erected on Whyte avenue, got away to a good start yesterday morning and the foundation work will be ahead steadily from this on until the basement is complete. Owing to a constant crumbling of the sides the excavation contract has been somewhat prolonged.

Strathcona Locals.

Rev. H. Hyde, minister of the new provincial Presbyterian college to be located here, reached the city yesterday afternoon and in company with Rev. T. and Mrs. Meach took a big trip about the university grounds which will be the guest of Dr. T. Thursday night he will address a meeting in Knox church.

Workmen on the radial railway are busy erecting in constructing the "Y" at the corner of Sixth street, and the city council last week. Another gang of workmen is engaged in excavating the track west of Second street west.

Although few large acreage sales are not so numerous as they were some days ago the real estate agents in the city are all doing a brisk business according to their reports, the residential properties transacting in Strathcona with the constantly augmented stream of buyers.

Mr. Corby, formerly of this city but who for the past two or three years has been in Ontario, returned yesterday with the provincial department pointing out the necessity of railways.

En route for the old country Mrs. Jas. Suddler and children left the city Sunday afternoon for a few months' visit with relatives in Argyleshire, Scotland. She will also spend some time visiting in England.

The Arts classes at the University are now taking their turn at the final examinations and for the remainder of this week and a part of next will be deep in the accompanying troubles. The Science students finished their final test week last week.

In response to a letter published last week from a citizen who objected to the present mail service being rendered by the C.P.R. to Strathcona, Secretary of the Board of Trade is busy obtaining information on the matter in question and it is likely that the trouble will be aired in a future meeting of that body. The greatest grievance with the present mail service appears to arise over the connection which is given in the Edmonton office.

Mrs. J. H. Homer left Sunday afternoon via the C.P.R. for Eastland where she will spend the next four months visiting relatives.

There has been a persistent rumor in circulation about the city for the past few days to the effect that construction work upon the proposed Canby station of the Northern railway line south would be opened very shortly but there appears to be no confirmation of the rumor from the official source. It is expected, however, by those somewhat informed of the company's plans, that work on the new station will be begun early this summer.

In the district court yesterday the day was taken up with a further hearing of the case of Whidlington vs. The Methodist church, but another adjournment until next Monday was found to be necessary.

Ex-Mayor Neir of Anzles, Sask., has been visiting in the city as the guest of Day Alton.

Professor and Mrs. Muir Edwards left last week for Ottawa where they have been for the summer. The Edwards, who is head of the Civil and Municipal Engineering department of the University, has been supervising the operation of the city's water sterilizing plant at the pumping station for the past few months and has arranged for a proper oversight of the work during his absence. He expects to return in September.

TRIUMPH OF EMPIRE THE REVENUE PRODUCERS OF THE HOMESTEAD

Far Reaching Effect of World-Girdling Empire Tour of the Sheffield Choir.

An Imperial Idea of the First Significance Now Being Worked Out to Success Under the Inspiration and Direction of Dr. Charles A. E. Harris.

EVERY BRITISHER SHOULD BE INTERESTED IN THIS IMPERIAL AND MUSICAL EVENT.

EDMONTON TO HAVE TWO DAYS' VISIT OF THIS WORLD FAMOUS ORGANIZATION NEXT TUESDAY AND WEDNESDAY.

Board of Trade Will Loyally Entertain This Distinguished Company of Empire Representatives and Visitors.

Since landing at Halifax this famous body of empire representatives and visitors have filled to overflowing every building in the United States and Canada provided for their festival concerts. The visit of the Sheffield Choir is an event of imperial importance. Their two festival concerts at the McLeod Auditorium next Tuesday and Wednesday will surely be filled to overflowing. Do not leave the purchase of your seats to the last day, as the auditorium has a limited capacity of fifteen hundred seats each evening. Reduced rates are available on all railways entering Edmonton. The plan of seating is at Harmony Hall, Rice street.

CORRESPONDENCE

Regarding the visitors flying to Grand View Heights Sunday, I wish to say that they positively agreed with me that they would give the exhibition of flying to Grand View Heights Sunday at 1:30 p. m., so that they would have plenty of time to make the 3 o'clock train going south. I went to them Friday evening after the meeting at the exhibition grounds and asked them if they still wished to make the flight on the 30th for the lot, and they assured me that they did as they were sure they could win the lot, and from their appearance everything at that time, they thought they would need it to make their expenses. They were not gentlemen enough to come and tell me that they were not going to keep their word, and I did not know but what they were going to keep their promise until Saturday evening at about 10 o'clock p. m., when I called them up by phone and they told me that their machine was crated and they would not make the attempt. I wish to assure you it was no fault of mine that so many were disappointed, because I supposed from the fact that these people were representing the Curtis Biplane Co. that their word could be depended on. Yours truly, L. L. PRANCE.

Exclusive Newsies in New York at Kelly

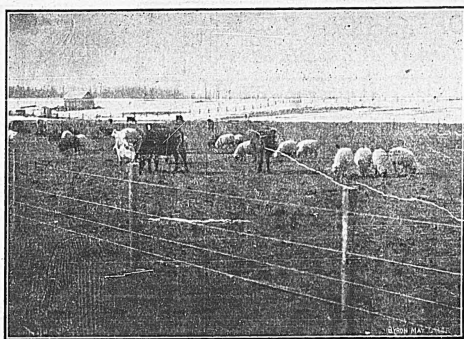

GAS PRODUCER WORKING
Commissioner Hamilton is confident that the gas producer plant will be in perfect working order, ready to take the full load at any time, if necessary, within the next three months. The engine has been working for several days and has at times carried over 500 k.w. but it is not deemed advisable to push the machine at its full working capacity until those in charge are certain that it is in good repair.

If there's a new time out in Men's Park, you'll be sure to find it at Kelly's.

For satisfaction in jewelry buying try Moore's.

BALTIMORE DEMOCRATS WIN IN SHARP FIGHT FOR MAYOR

Baltimore, Md., May 3.—After one of the most closely contested elections on record in Baltimore, James H. Preston, democrat, has been chosen mayor of Baltimore for the next four years over former Mayor E. Clay Thomas, republican.

PASTORAL SCENE IN THE LANDING DISTRICT

Owing to its superior advantages as a mixed farming country, the Athabasca Landing district, now that it is guaranteed railway facilities, is attracting a very large percentage of the settlers flocking into this part of Alberta.

The homestead entries in this district for 1910 showed an increase over 1909 of 126 per cent., and from present indications the increase this year will be even greater than that. Wheat averaged 26 bushels to the acre in this district last year; oats, 61, and barley 38. These figures speak well for the district. A great deal of this grain was grown on new breaking. The surrounding country is well adapted for mixed farming, as well as grain growing. It is rolling and well watered.

The sheep and cattle raising industry is going to be the greatest source of wealth in the Landing district and already some of the older settlers have extensive flocks and herds. This scene is taken on a farm immediately adjacent to Athabasca Landing.

There are still some first-class homesteads within a few miles of the Landing, but at the present rate of settlement, they will soon be taken up.

FOR SKIN IRRITATION

We Guarantee Relief—Your Money Back if Not Satisfied.

We have an ointment possessing extraordinary power to permanently relieve all forms of eczema, skin eruptions, pimples, blotches, ringworm, acne, teller, scaly scalp, herpes, all forms of itching and irritation caused by insect bites. Its power to soothe ulcers, sores, and wounds is very pronounced.

We are so positive that Rexall Eczema Ointment is unequalled for overcoming these ailments that it will not cost the user anything unless it in every way gives satisfaction. We exact no promises and in no way obligate the purchaser. You must admit that we could not afford to make such a broad, liberal guarantee, except we are certain we could substantiate our claim.

Rexall Eczema Ointment is a grayish-white, pleasant smelling, antiseptic, cooling, healing salve that is strongly germicidal. It destroys the germs that penetrate the skin and cause eczema and other tormenting skin ailments. A remedy must do that to be effective, for in no other way can such diseases be overcome.

Rexall Eczema Ointment is ideal for the treatment of skin irritations peculiar to children, for barber's itch and for sore, itching feet.

It is positively the best remedy we know of, and we urge you to try it at our risk. Two sizes, 50c, and \$1.00—The Rexall Store. A. Archibald.

LOOKS PECULIAR FOR ARTIFICIAL

GAS IN EDMONTON FOR PRESENT

(Continued from Page One.)

trial committee will communicate with Mr. Freese and secure from him a concrete proposition which it is expected will be laid before the council at the next regular meeting on Tuesday evening.

A representative of Gates, Ltd., of London, England, leave Fort William today for Edmonton and upon his arrival

at here will be prepared to submit to the council a proposition to install a municipal plant. It is understood that this firm is prepared to install a plant of the type which would be needed by the city and turn the same over to the municipality as soon as it is completed. Just what the capital charges for such a plant would be should this firm undertake the project, will not be known until Mr. Gates reaches the city.

At the adjourned meeting of the council on Thursday afternoon the technical report in not having the committee error to the council that the commissioners submit a new agreement will be rectified and the commissioners and industrial committee so instructed. The time is very short, however, for preparing a proper agreement, in which there would be no long holes, such as were pointed out by Commissioner Bouillon instanced last evening, and there is some question as to whether a new agreement could be prepared in time for submission to the council on Tuesday evening.

**160 Acres
of Land
\$1700**

\$600 cash; balance \$300 at 5 per cent, and \$800 at 8 1-2 per cent.

4 miles

From a good town and nearly all fenced. Has a good all-year spring; is located in the best wheat and cattle belt. For a farm there is none better in Canada and for a home it is as close as many city people reside. Adjoining farms all now priced at \$4,000. But we must sell this, so if you have \$600 come quickly and mention the Capital or write.

SPORTS

BASEBALL SEASON OPENS TODAY
WITH MOOSE JAW AT EDMONTON

SPORTS

The Chronicles of Inbad, the Tailor

By H. B. Martin

Moose Jaw Meets Deacon's Eskimos in First Clash of Season; Game Will Start at 3 O'clock After the Big Parade Up Street

DEACON HAS TEAM IN FAIR SHAPE FOR CLASH WITH ROBINHOODS TODAY

Hungry Fans Will Have Big Chance to Root—Anticipate Fierce Struggle
With Moose Jaw Sphere Slashers Returned From Training With Coast
Teams—Monster Parade Will Escort Gladiators to Scene of Combat

It is a day of much noise, only all the sounds are collected in a bunch and the bunch occurs about three o'clock down at the ball park. If you would know the reason ask Deacon White, but to save him the trouble of asking too many questions read.

It is the opening of the ball season. Fatherfamilias takes his wife and accumulation of kids by their various hands and leads them proudly down the hill. If he doesn't he hasn't much more red blood than their deceased grandmothers. Business men, ministers, lawyers and doctors take their seats in the bleachers and choke because they try to root when they are eating peanuts.

The Mayor
Mayor Armstrong will wind up the clock work and shoot the first cannon blast over the platter. He has been practicing out in the back yard during the last week and without doubt the stunt will have an original bend. The diligent physician exercise is having a salutary effect on honorable Commissioner Boulden. When his head, hands his arm into a damnable position and throws it wildly about his head the commissioner breathes a hearty retreat to his hat.

The Parade
There is notice to be a big parade before the game just by way of encouragement to the fans to root. Of course the fans would not go away, but some of them might forget their tin horns were not yet returned at least an hour before time.

The Eagle
When the ball fans line up for the grand parade prior to the opening game, Edna, Mrs. A. No. 1022, Fraternal Order of Eagles, which boasts as one of its members, Slaughter Deacon White, will be there with bells, banners and blow horns. Of course the parade and the auto ride will be only incidental to the birds as the Arctic is composed of such a hot bunch of sports that they would all be at the game anyway.

MOOSE JAW TEAM WILL BE READY

The Moose Jaw baseball team under the leadership of Bill Hurley arrived in the city by the 10:30 train last night. Rooms had not been reserved for them and it was late before all were located. There are twelve in the party as follows—Fournier, Collins, Dunn, Maxton, Harper, Kelly, Hurley, Fitzgerald, Beck, Naveen, Dickinson and Manager Hurley. Harper and Dunn are known to Edmonton fans. The others are new to the Northwestern league and should show a lot of the speed and skill that will be today under a handicap, having traveled all yesterday and the day before from the coast.

Ellis and Davidson who were in the Western Canada league last year will join the team here tomorrow.

Men's Panama Hats

All the very latest spring styles can now be seen. If you want something a little different from the ordinary. See us.

Settlers' Supplies can be bought best here. We have special facilities for packing to ship, either by water, land or rail. We know your wants and can outfit you complete at the smallest possible cost.

HUDSON'S BAY CO.

Moose Jaw	The Line-up	Edmonton
Collins or Masten	Pitcher	Kansas Skillingan
Fournier	Catcher	Jack Sorenson
Hurley	First Base	Andy Baxter
Pitzgerald	Second Base	Johnny Makin
Beck	Third Base	Jack Brennan
Harper	Short Stop	Rube Mills
Dunn	Left Field	Roy Dudley
Kelly	Centre Field	Bill Lussl
Dickinson	Right Field	Chesty Cox

The Batting Order
Edmonton—Mills, Mahin, Dudley, Lussl, Cox, Brennan, Baxter, Sorenson, Skillingan.
Moose Jaw—Harper, Dickinson, Kelly, Hurley, Fournier, Fitzgerald, Riggs, Dunn, Collins.

The Eagles have a few real rooters among their members and in order to let them be heard efforts are being made to induce Worthy President Joe Clarke to refrain from rooting until about the ninth inning.

Norman McNeil is chairman of the Eagles Committee and reports that there will be enough automobiles at the Jasper House at 2 p.m. tomorrow to accommodate all the local fans and all visiting fans as well, and all members of the order are invited to be on hand about 10:30 a.m.

With every thing looking except Winnipeg, everyone wanting to see good ball except Winnipeg, everyone preparing for a good season except Winnipeg, the season could be successful in spite of Winnipeg.

The Capital wanted to know what the line-up of the Moose Jaw team was. It sent a hurry up wire to the Prairie City newspaper. The reply came that there were only eight players in the city and they had never met a prairie.

Moose Jaw Line
The Moose Jaw team is in the city and

Bill Hurley says his men are feeling like pippins. Their training on the coast put them in the pink of condition and they are suiting the leather enthusiastically. Hips, Biceps, Harper, Fitzgerald, Fournier, Dickinson, Kelly, Davidson, Masten, Collins, Naveen, Bedford, Dunn and Manager Hurley.

Calgary, May 3.—In all probability Pete Standridge will peddle the pill at the opening game of the Western Canada Baseball league tomorrow at the ball garden. If it is said that he did and the road was good to him he would be unable to pay for the season. That is said to be the way he feels about it.

The other men on the lineup will be: Matt Stanner, c; Morgan, 1st b; Dugan, 2nd b; Martin, 3rd b; Griffin, s.s.; Wilson, if; Moran, cf; Flannigan, if.

In the East
In the east Winnipeg and Brandon will clash here at the latter town. Winnipeg appears to be in bad shape to start the season and it is to be expected that the directors of that club have not taken greater interest in the promotion of the game.

Brandon, May 3.—The line-up of the team that plays Winnipeg tomorrow is as follows: McRay, centre field; Holmes, 2b; Shaffer, 1b; Boy, catcher; Letcher, r.f.; Kessner, l.f.; Fry, 3b; Smith, short; and Heinrich, p.

In reply to an inquiry sent by the Capital yesterday the following despatch was received:

Winnipeg, May 3. (Special to the Capital.) Only one knows the Maroon line-up. Only eight men here as yet.

And the ball season is open!

SPORT COMMENT

REGINA AMATEURS FORM ASSOCIATION

The local taken by Regina Amateurs in forming an affiliated association of athletic clubs to agitate for grounds and to control athletics of all clubs in that city is one that might be followed with good results by Edmonton amateurs. Edmonton has wanted good athletic grounds for a long time and it is getting them but they are coming slowly. To hasten the completion of these better made be the object of the affiliation.

The executive of the association would have the power of reference and would settle all disputes between clubs which as has recently arisen in connection with football in the city league.

Nowhere in Canada does there exist an organization of the people who are doing in Regina and it is a tribute to the efforts of the people who have worked hard to bring about the spirit which would make such an organization possible. Regina has certainly taken the lead in this matter and the young men of that city deserve credit for their enterprise. It is a matter well worthy of the consideration of the authorities to help along the amateur sports and develop among better and manlier men of them.

Bill Carter has come through and laid up the first ever won the Calgary ball club—at least the Hook Island team paid it for him. Bill had been threatened with blacklisting by the National Commission if he did not pony up. The Hook Island club assumed his debts along with his last money evidently thinking his baseball ability overbalanced both.

The fast are wondering if Inshore Hawkshaw who resides at the punch holes in the course does think a meeting of the baseball fans at the grounds is the same as a political meeting at the Thistle Inn.

Gordon Sanford received a letter from basketball hall of fame of the four Athletic Association enquiring why he had not given an effort to the forthcoming as requested by the association some time ago. Mr. Sanford

might have waited till after the baseball season has got rightly started before creating a disturbance such as his letters always do.

President Eckert says that all the clubs have paid up except Winnipeg. Winnipeg evidently makes itself too great to be heard with the other towns of Western Canada. The overgrown Prairie Village is like a school boy with the straps.

That parade this afternoon promises to be sensational. Additional excitement is promised by the presence of Inshore Hawkshaw.

The city baseball league is getting busy. A meeting will be held this evening by the Y. M. C. A. to draw up a schedule.

Edmonton merchandisers are coming through with good prices for the players in the opening game of the season. Brownie Co. offers \$20 cash for best batting average for the season. Olympia barber shop offers a season ticket for shaves for the Eskimos' first home run. Conrad Bros. offers gloves, mitts, etc. for first time run; Johnston Walker Co. offers a pair of shoes for the first two base hits.

ONE MILLION DOLLARS FOR BALL STAND

New York, May 3.—A steel and concrete baseball stadium to seat 30,000 and to cost approximately \$1,000,000 will take the shape of the hurriedly started Polo grounds and will be ready for the occupied by the 1912 season opens. This decision was reached Saturday by the New York club following the signing of a 20 years' lease of the Polo grounds. The principal owner of the Club to build the stadium is the Y. M. C. A. The work will begin at once. The present bleachers were removed through the Polo grounds at the season is over; they will be razed and the stadium completed.

MAAZ WINS CHESTER RACE

Chester, Eng., May 3.—The Chester vases \$2,000 for three and four-year-olds, one mile and a half, was won yesterday by the favorite Maaz, who is engaged in the derby. Sadler's Squire was second and Lord Derby's Oliver Goldsmith third. Also ran Tim Healy, All Gold and Othello.

WIMPY KELLY VS JACK MORGAN

South Bend, Ind., May 3.—The Interurban Athletic Club of this city has arranged a promising card for its boxing show Friday night. The main event will be a ten-round bout between "Wimpy" Kelly of Chicago and Jack Morgan of Indianapolis.

TRACK MEN MEET

A bunch of the Y. M. C. A. track athletes will start out to the Exhibition park this evening at six o'clock. All those who were out Monday night are requested to come out again as well as all others who would like to play with the Y team. Everybody get into the game.

Y.M.C.A. BALL PRACTICE

The Y. M. C. A. will hold a baseball practice at the Exhibition park this evening at six o'clock. All those who were out Monday night are requested to come out again as well as all others who would like to play with the Y team. Everybody get into the game.

The intermediate football team of the Baptist church defeated the Y. M. C. A. intermediates by a score of one to nothing. The game was a fairly good exhibition of football and there was a small bunch of fans turned out to see it.
